

<i>Working stages</i>	<b>TECHNICAL SPECIFICATIONS: OXYDECOR® RUST EFFECT</b>	<i>Indicative estimated quantity</i>	<i>Unitary cost</i>
<b>Art. 1 Support preparation</b>	According to the type and conditions of the support, the surface must be treated either by polishing or sanding.		
	For concrete supports, the surface must be washed with an Isoplam® high pressure cleaner, in order to remove dust and any part that could detach.		
	All superficial cracks must be restored using Isoplam® Deco Mortar, an Isoplam® thixotropic epoxy mortar, or Isoplam® Ipm Epoxy Kit.		
	Protect all the adjacent surfaces and objects that should not be treated with Oxydecor® Rust using Isoplam® Nylon sheets with tape and Isoplam® Paper Tape.		
<b>Art. 2 Primer</b>	Application of Isoplam® DECO PRIMER FINISH, evenly distributed with an Isoplam® long hair roller.	0,150 lt/m <sup>2</sup>	
	Wait for the surface to completely dry before proceeding with the application of Isoplam® Oxyrust Primer by roller.	0,100 lt/m <sup>2</sup>	
<b>Art. 3 Oxyrust Paint</b>	After the complete drying, apply the first coat of Isoplam® Oxyrust Paint with an Isoplam® Plastic Trowel or an Isoplam® Brush.	0,375 lt/m <sup>2</sup>	
	Wait for the first coat to be completely dry, then apply a second coat of Isoplam® Oxyrust Paint.	0,375 lt/m <sup>2</sup>	
<b>Art. 4 Oxyrust Oxidant</b>	Spray Isoplam® Oxyrust Oxidant in an irregular way with an Isoplam® Plastic pump for acids.	0,100 lt/m <sup>2</sup>	
<b>Art. 5 Oxyrust Activator</b>	As soon as the surface is almost completely dry, spray uniformly Isoplam® Oxyrust Activator over the entire surface with an Isoplam® Plastic pump for acids in order to stop the oxidation cycle.	0,120 lt/m <sup>2</sup>	
<b>Art. 6 Protection</b>	Wait for the surface to be completely dry before applying by roller Isoplam® Oxyrust Protection, a water-based protection.	0,140 lt/m <sup>2</sup>	
	Or apply Isoplam® Plam Pol Water, a polyurethane protective resin, and another coat of Plam Pol using an Isoplam® Roller for resins.	0,200 kg/m <sup>2</sup>
