

INSPIRATION BOOK

**ISO
PLAM**[®]

concreativity

**Lo sa bene ISOPLAM
che alla Natura s'ispira.**

Ogni nostra creazione svela l'anima creativa del cemento, il gioco delle materie prime naturali che si scompongono e ricompongono secondo ritmiche ed equilibri irripetibili.

Nella sua grande versatilità, la Natura ci insegna a cogliere bellezza, esclusività e carattere di ogni sua sfumatura. Ognuna diversa dall'altra. Come diverse sono le nostre collezioni.

Pavimenti e rivestimenti decorativi che raccontano il fascino dell'originalità. Personalizzazioni estreme con colori, effetti e texture sempre differenti. Scelte stilistiche e soluzioni tecniche che si intonano alle molteplici espressioni della Natura e alla sua infinita fantasia.

**ISOPLAM is well aware
that it is inspired by Nature.**

Each of our creations reveals the creative soul of concrete, the play of natural raw materials that break down and recombine according to unrepeatable rhythms and balances.

In its great versatility, Nature teaches us how to grasp the beauty, uniqueness and personality of each of its nuances. Each different from the other. Just like our collections are.

Decorative floors and wall coverings that convey the charm of originality. Extreme customizations with always different colors, effects and textures. Stylistic choices and technical solutions that match the multiple expressions of Nature and its infinite imagination.

CONCREATIVITY

Quando la tua creatività progettuale e la nostra conoscenza del cemento si incontrano, nascono superfici a basso spessore impeccabili e destinate a durare nel tempo. Da oltre 45 anni, Isoplam produce i materiali, cura la posa in opera e garantisce la qualità del lavoro finito. Sembra una normale texture, ma tu e noi sappiamo che questa è Concreativity.

**Lasciati ispirare dalle nostre realizzazioni
oppure scegli il colore giusto per te.**

When your design creativity and our knowledge of concrete meet each other, flawless low-thickness floors are born, destined to last over time. For over 45 years Isoplam has been producing materials, taking care of the installation and guaranteeing the quality of the finished work.

It looks like a normal texture, but you and we both know that this is Concreativity.

**Be inspired by our creations
or choose the right color for you.**

PLAM STAMPABLE

OUTDOOR

PAVIMENTO STAMPATO
STAMPED CONCRETE

TRASFORMISTA PER NATURA TRANSFORMER BY NATURE

Pietra, mattoni, legno, piastrelle, marmo. Plam Stampable può prendere le sembianze di qualsiasi materiale. La naturale creatività del cemento stampato rende tale collezione straordinariamente versatile perché capace di simulare in modo realistico ogni tipo di pavimentazione tradizionale. Personalizzabile nei colori e nelle texture che si preferiscono, racconta allo sguardo una grande varietà di materiali, forme, tonalità sempre diverse svelando, realizzazione dopo realizzazione, la sua natura trasformista. Particolarmente indicato per gli ambienti esterni, non teme il passare del tempo e delle stagioni perché privo di punti deboli ed estremamente resistente.

Stone, brick, wood, tiles, marble. Plam Stampable can take the form of any material. The natural creativity of stamped concrete makes this collection extraordinarily versatile because it is capable of realistically simulating any type of traditional flooring. Customizable in the colors and textures you prefer, it reveals to the eye a great variety of materials, shapes, shades that are always different, revealing, creation after creation, its transforming nature. Particularly suitable for outdoor environments, it does not fear the passage of time and the seasons because it has no weak points and is extremely resistant.

INTONACO STAMPABILE
STAMPED PLASTER

SUPERFICI NATURALI E LEGGERE NATURAL AND LIGHT SURFACES

Scopri il fascino senza tempo del sistema Plam Stone, l'intonaco stampabile decorativo che rivoluziona il modo di interpretare le superfici verticali. Ideale per pareti interne ed esterne, si adatta con naturalezza a qualsiasi contesto architettonico grazie alla sua eccezionale versatilità. Plam Stone riproduce con grande realismo l'effetto materico di pietra, mattone, legno o roccia, trasformando pareti anonime in superfici ad alto impatto estetico. Leggero e resistente agli agenti atmosferici, è adatto anche su strutture esistenti. La vasta scelta di colori e texture rende ogni applicazione unica, con un effetto artigianale autentico.

Discover the timeless charm of the Plam Stone system, the decorative stamped plaster that transforms the way we design vertical surfaces. Ideal for both interior and exterior walls, it blends effortlessly into any architectural context thanks to its exceptional versatility. Plam Stone realistically replicates the texture of stone, brick, wood, or rock, turning plain walls into visually striking surfaces. Lightweight and weather-resistant, it is also suitable for existing structures. A wide range of colors and textures allows for unique, handcrafted finishes in every application.

ROCCE ARTIFICIALI
ARTIFICIAL ROCKS

RIVESTIMENTI SCENOGRAFICI SCENIC COVERINGS

Plam Rock offre una vasta gamma di possibilità per creare rocce artificiali, cascate, scalini, tavoli e altro ancora. La sua malta fibrata monocomponente è facile da modellare e garantisce risultati realistici e dettagliati. Perfetto per giardini, parchi tematici e piscine, Plam Rock si adatta a una varietà di superfici e offre resistenza agli agenti atmosferici e agli urti. Con l'uso di attrezzi speciali e stampi in gomma, è possibile creare elementi scenografici in tempi rapidi, mantenendo una qualità duratura e una caratteristica idrorepellente.

Plam Rock offers a wide range of possibilities for creating artificial rocks, waterfalls, steps, tables, and more. Thanks to its single-component fibrous mortar, it is easy to shape and guarantees realistic and detailed results. Perfect for gardens, theme parks, and pools, Plam Rock adapts to a variety of surfaces and offers resistance to weathering and impact. With the use of special tools and rubber molds, scenic elements can be created quickly, maintaining lasting quality and water-repellent properties.

ITALIANTERRAZZO®

OUTDOOR

GHIAINO LAVATO
EXPOSED AGGREGATE PAVING

ANIMA ECOLOGICA ECOLOGICAL ESSENCE

ItalianTerrazzo unisce il fascino irregolare della graniglia con la massima praticità e resistenza nel tempo. Questa soluzione, anche nota come sasso lavato, offre superfici esterne eleganti e di grande impatto estetico. La posa è semplice e adattabile sia su calcestruzzo fresco che su pavimentazioni esistenti. È una scelta ecologica, perché realizzata con materiali naturali come cemento e graniglia di marmi pregiati, combinati con una miscela fibrorinforzata colorata, senza bisogno di trattamenti chimici aggiuntivi. ItalianTerrazzo è ideale per viali d'accesso carrabili a edifici residenziali e commerciali, ma anche per piazze, marciapiedi, centri storici e bordi piscina, dove coniuga estetica, sicurezza e durabilità.

ItalianTerrazzo combines the natural charm of irregular stone chips with outstanding practicality and long-lasting durability. Also known as exposed aggregate, this solution delivers elegant and visually striking outdoor surfaces. Installation is simple and can be applied on both fresh concrete and existing pavements. It is an eco-friendly option, made with natural materials such as cement and high-quality marble aggregates, blended with a fiber-reinforced colored mix—eliminating the need for chemical treatments. Weather-resistant and drive-over safe, ItalianTerrazzo is ideal for residential and commercial driveways, as well as squares, sidewalks, historic centers, and swimming pool edges, offering a perfect balance of aesthetics, safety, and durability.

TERRAZZOVERLAY™

OUTDOOR / INDOOR

MICRO VENEZIANA
MICROTERRAZZO

ELEGANZA SENZA TEMPO TIMELESS ELEGANCE

Terrazzooverlay è la superficie decorativa che permette di riprodurre in un basso spessore, soli 4-8 mm, la tipica, elegante texture e la raffinatezza del terrazzo alla veneziana. Un classico della creatività italiana nell'architettura e decorazione di interni viene interpretato e trasformato da Isoplam in una soluzione estremamente versatile: la possibilità di personalizzare la miscela di marmo italiano, anche con l'aggiunta di inserti in madreperla e pietre naturali, permette di realizzare pavimenti ogni volta unici, moderni e ricercati ma al tempo stesso estremamente resistenti.

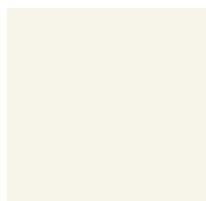

Terrazzooverlay is the decorative surface that allows you to reproduce the typical, elegant texture and refinement of the Venetian terrazzo in a low thickness, just 4-8 mm. A classic of Italian creativity in architecture and interior decoration is interpreted and transformed by Isoplam into an extremely versatile solution: the possibility of customizing the Italian marble blend, also with the addition of mother-of-pearl and natural stone inserts, allows you to create unique, modern and refined floors every time, but at the same time extremely resistant.

MAXI VENEZIANA
MAXI VENETIAN FLOOR

LA BELLEZZA DEL TERRAZZO ALLA VENEZIANA, A SPESSORE VARIABILE THE BEAUTY OF VENETIAN TERRAZZO, WITH A VARIABLE THICKNESS

Terrazzooverlay XL è il rivestimento che reinterpreta il terrazzo alla veneziana con uno spessore di soli 2-5 cm, risultando ideale per spazi contemporanei e interventi di ristrutturazione. La miscela di graniglie di marmo italiano, arricchibile con inserti di madreperla e pietre naturali, consente di realizzare superfici personalizzate e scenografiche, adatte a residenze di pregio, spazi contract e aree ad alto traffico. Disponibile in versione lucida per interni oppure spazzolata antiscivolo per esterni, unisce valore estetico, resistenza e durabilità, trovando applicazione in abitazioni, showroom, uffici, centri commerciali, strutture ricettive, spa, musei e contesti storico-culturali.

Terrazzooverlay XL is a coating that reinterprets traditional Venetian terrazzo with a thickness of only 2-5 cm, making it ideal for contemporary spaces and renovation projects. The blend of Italian marble aggregates, which can be enriched with mother-of-pearl and natural stone inserts, allows the creation of customized and visually striking surfaces, suitable for prestigious residences, contract environments and high-traffic areas. Available in a polished finish for interiors or a brushed anti-slip version for outdoor applications, it combines aesthetic value, strength and durability, making it suitable for homes, showrooms, offices, shopping centres, hospitality venues, spas, museums and cultural sites.

STILE E PERFORMANCE STYLE AND PERFORMANCE

Microoverlay offre uno straordinario impatto estetico con uno spessore di soli 3 millimetri. Il microcemento di Isoplam, versatile e personalizzabile, si adatta a qualsiasi stile architettonico, dal moderno all'industriale. Con una gamma infinita di colori e finiture, Microoverlay trasforma pavimenti, pareti e arredi, integrandosi perfettamente in ambienti interni ed esterni. La sua aderenza permette l'applicazione su vari materiali, mentre la resistenza al traffico medio e l'idrorepellenza lo rendono ideale per diverse aree. La superficie continua, igienica e facile da pulire, con la compatibilità al riscaldamento a pavimento, fa di Microoverlay la scelta ottimale per uno stile senza compromessi.

Microoverlay delivers a remarkable aesthetic impact with a thickness of just 3 millimetres. Isoplam's microcement is versatile and highly customizable, adapting to any architectural style, from modern to industrial. With an extensive range of colours and finishes, Microoverlay transforms floors, walls and furnishings, integrating seamlessly into both indoor and outdoor spaces. Its strong adhesion allows application on various substrates, while its resistance to medium foot traffic and its water-repellent properties make it suitable for a wide range of areas. The continuous, hygienic and easy-to-clean surface, combined with compatibility with underfloor heating systems, makes Microoverlay an optimal choice for uncompromising design.

CEMENTO EFFETTO NUVOLATO
NUVOLATO CONCRETE EFFECT

ELEGANZA IN OGNI AMBIENTE ELEGANCE IN EVERY ROOM

Il pavimento nuvolato è una soluzione dall'aspetto estetico molto ricercato, capace di rendere straordinari anche gli ambienti quotidiani e di lavoro. Il calcestruzzo, con il suo mood industriale, diventa una vera e propria opera d'arte, dando vita a realizzazioni ogni volta uniche e differenti. La superficie della pavimentazione appare piacevolmente sfumata, con variazioni di colore più scure che risaltano su uno sfondo più chiaro, come se fossero delle nuvole. La gamma cromatica è ampia, permettendo di creare pavimenti nuvolati completamente personalizzati, con gradazioni di colore irripetibili.

The nuvolato effect floor is a solution with a highly refined aesthetic appearance, capable of making everyday and work environments extraordinary. Concrete, with its industrial mood, becomes a real work of art, bringing to life creations that are different and unique each time. The pavement surface appears pleasantly shaded, with darker color variations that stand out against a lighter background, as if they were clouds. The chromatic range is wide, allowing you to create completely customized cloudy floors with unrepeatably shades of color.

Skyconcrete Indoor unisce l'eleganza dell'effetto nuvolato con la praticità di un rivestimento ultra-sottile, solamente 2 mm. Perfetto per trasformare pavimenti esistenti, offre un'ampia gamma di colori personalizzabili, ideali per ambienti ad alto traffico come uffici e negozi. Con resistenza superiore all'usura e agli urti, permette un rapido rinnovamento delle superfici senza rimozione o demolizione, risparmiando tempo e denaro. Compatibile con vari substrati, è facile da pulire e sicuro per l'ambiente, adatto anche ai sistemi di riscaldamento a pavimento.

Skyconcrete Indoor blends the elegance of cloud-like effects with the practicality of an ultra-thin coating, just 2 mm thick. Perfect for transforming existing floors, it offers a large choice of customizable colors, ideal for high-traffic areas like offices and shops. With superior resistance to wear and impact, it allows for quick surface renewal without removal or demolition, saving time and money. Compatible with various substrates, it's easy to clean and environmentally safe, suitable even for underfloor heating systems.

MOVIMENTO E BELLEZZA MOVEMENT AND BEAUTY

Skyconcrete Outdoor offre texture sofisticate sia per pavimenti nuovi che per il restyling di quelli esistenti, con molteplici opzioni di colore tra cui scegliere. Le sue proprietà antiscivolo garantiscono sicurezza, rendendolo perfetto per zone ad alto traffico. Coniugando fascino estetico e resistenza, questo rivestimento si distingue per la sua durabilità e resistenza all'usura. Grazie alla sua versatilità e alle prestazioni di alto livello, Skyconcrete Outdoor rappresenta la scelta ideale per chi cerca una perfetta combinazione di bellezza e funzionalità nei pavimenti esterni.

Skyconcrete Outdoor offers sophisticated textures for both new and refurbished floors, with various color options to choose from. Its non-slip properties ensure safety, making it perfect for high-traffic areas. Combining aesthetic appeal with durability, this coating stands out for its resilience and resistance to wear. Thanks to its versatility and high-performance qualities, Skyconcrete Outdoor represents the ideal choice for those seeking a perfect combination of beauty and functionality in outdoor flooring.

PAVIMENTO EFFETTO GRIP BASSO SPESSORE
LOW-THICKNESS GRIP EFFECT FLOORING

EFFETTO ELICOTTERATO PER ESTERNI POWER-TROWELED EFFECT FOR OUTDOOR FLOORS

In soli 2-3 mm di spessore, Skygrip rappresenta la soluzione ideale per rinnovare i pavimenti trasformandoli in superfici uniche, dall'elevato impatto estetico e al tempo stesso antiscivolo. Disponibile in molteplici tonalità per adattarsi a qualsiasi contesto architettonico, dal moderno al classico, Skygrip garantisce eccellenti prestazioni tecniche in termini di resistenza all'usura e agli urti, rendendola ideale per spazi ad alto passaggio. Il suo aspetto contemporaneo valorizza camminamenti, marciapiedi, ingressi pedonali o carrabili, piazzali e spazi pubblici, offrendo una soluzione decorativa durevole, sicura e di grande impatto visivo.

With a thickness of only 2-3 mm, Skygrip is the ideal solution for renovating floors and transforming them into unique surfaces with a strong aesthetic impact while ensuring anti-slip performance. Available in a wide range of colours to suit any architectural context, from modern to classic, Skygrip offers excellent technical performance in terms of wear and impact resistance, making it suitable for high-traffic areas. Its contemporary appearance enhances walkways, sidewalks, pedestrian or vehicular entrances, courtyards and public spaces, providing a durable, safe and visually striking decorative solution.

PAVILUX®

INDOOR / OUTDOOR

CEMENTO INDUSTRIALE
INDUSTRIAL CONCRETE

BELLEZZA E RESISTENZA BEAUTY AND RESISTANCE

Pavilux consente di realizzare superfici ad alte prestazioni, resistenti all'usura, all'attrito e all'impatto. Le versioni con quarzo sferoidale tedesco e corindone assicurano pavimentazioni di grande durata, mentre quelle con quarzo sferoidale tedesco e acciaio sono studiate per evitare la formazione di scintille dovute allo sfregamento di materiali ferrosi, riducendo così il rischio di incendi. Facile da pulire e mantenere, Pavilux è ideale per pavimentazioni civili, commerciali e industriali come parcheggi, piazzali, vialetti, marciapiedi, porticati, rampe, porti, aeroporti, industrie chimiche, siderurgiche, metalmeccaniche, metallurgiche, elettriche, elettroniche, centri direzionali e logistici, centri commerciali. Per applicazioni in esterno, è disponibile la versione Pavilux Grip, con finitura antiscivolo che garantisce massima aderenza e sicurezza anche in condizioni di bagnato.

Pavilux allows the creation of high-performance surfaces with excellent resistance to wear, abrasion and impact. Versions with German spheroidal quartz and corundum ensure long-lasting durability, while those with German spheroidal quartz and steel are designed to prevent the formation of sparks caused by the friction of ferrous materials, reducing the risk of fire. Easy to clean and maintain, Pavilux is ideal for civil, commercial and industrial floors such as car parks, yards, driveways, sidewalks, porticoes, ramps, ports, airports, chemical, steel, metalworking, metallurgical, electrical and electronic industries, business and logistics centers, and shopping malls. For outdoor applications, Pavilux Grip is available with a non-slip finish that ensures maximum grip and safety even in wet conditions.

PLAM CEM DRAIN

OUTDOOR

CALCESTRUZZO DRENANTE PER ESTERNI
DRAINING CONCRETE FOR EXTERIORS

SUPERFICI PERMEABILI E SICURE PERMEABLE AND SAFE SURFACES

Plam Cem Drain è il calcestruzzo drenante firmato Isoplam, una soluzione innovativa e sostenibile per la realizzazione di superfici esterne moderne, sicure e funzionali. Grazie alla sua struttura porosa, consente all'acqua di filtrare naturalmente nel terreno, evitando ristagni, ruscellamenti e allagamenti, migliorando la gestione delle acque meteoriche e riducendo gli effetti delle isole di calore urbane. La miscela cementizia, ad alta resistenza meccanica e ottima permeabilità, garantisce superfici durevoli e stabili nel tempo. Lo spessore varia in base all'uso: 10 cm per aree pedonali, 15 cm per traffico leggero, 20 cm per carichi pesanti. Ideale per vialetti, patii, marciapiedi, piste ciclabili, parcheggi, piazze, bordi piscina, parchi e villaggi turistici.

Plam Cem Drain is Isoplam's drainant concrete, an innovative and sustainable solution for creating modern, safe, and functional outdoor surfaces. Thanks to its porous structure, it allows water to naturally filter into the ground, preventing puddles, runoff, and flooding while improving stormwater management and reducing the effects of urban heat islands. The cement mixture, featuring high mechanical strength and excellent permeability, ensures durable and stable surfaces over time. Thickness varies according to use: 10 cm for pedestrian areas, 15 cm for light traffic, and 20 cm for heavy loads. It is ideal for walkways, patios, sidewalks, cycle paths, parking areas, squares, pool decks, parks, and holiday resorts.

GHIAINO DRENANTE PER ESTERNI
DRAINING AGGREGATE FOR EXTERIORS

SUPERFICI DRENANTI DAL GRANDE IMPATTO ESTETICO AESTHETICALLY STRIKING DRAINING SURFACES

Plam Resin Drain è un sistema drenante pensato per realizzare superfici continue capaci di coniugare prestazioni tecniche elevate e qualità estetica. Grazie alla miscela di graniglie naturali legate con resine ad alte prestazioni, la pavimentazione consente un rapido deflusso dell'acqua piovana, riducendo ristagni e migliorando la sicurezza delle superfici esterne. Il risultato è una superficie permeabile, stabile e resistente, ideale per percorsi pedonali, piazze, giardini, bordi piscina e spazi pubblici. Oltre all'efficacia drenante, il sistema offre ampie possibilità di personalizzazione cromatica e granulometrica, permettendo ai progettisti di integrare la pavimentazione in modo armonico nel contesto architettonico e paesaggistico.

Plam Resin Drain is a permeable paving system designed to combine high technical performance with refined aesthetics. Made of natural aggregates bound with high-performance resins, the surface allows rapid rainwater drainage, reducing puddles and improving the safety of outdoor areas. The result is a stable, permeable and durable surface suitable for pedestrian paths, squares, gardens, pool surrounds and public spaces. In addition to its drainage capacity, the system offers a wide range of color and aggregate combinations, enabling designers to integrate the pavement harmoniously within architectural and landscape contexts while achieving visually distinctive and functional outdoor surfaces.
