

EPOXY THINNER

Thinner for Skyprimer

DESCRIPTION

Isoplam® Epoxy Thinner is a thinner specially formulated for the dilution of Skyprimer Isoplam® epoxy resin and is a solvent for cleaning the equipment used for its application.

USE

Isoplam® Epoxy Thinner is ready to use.

Use as a thinner: add approx. 3% by weight of Epoxy Thinner to the mixture of the two components of Skyprimer and mix thoroughly.

Use as a solvent: remove the resin that is still fresh by immersing the equipment to be cleaned in Epoxy Thinner or by rubbing with a natural fiber cloth soaked in the product.

Product residues must be disposed of according to current regulations.

TECHNICAL INFORMATION

Appearance	Transparent liquid
Relative Density	0.887 Kg/Lt
Flash point	<23°C
Solubility	Not soluble in water
Vapour pressure	2 mmHg
VOC (Directive 1999/13/EC) VOC (Volatile Carbon)	100,00 % - 886,54 g/litre 70,93 % - 628,80 g/litre

PACKAGING

Isoplam® Epoxy Thinner is supplied in 5 Lt tanks.

STORAGE AND SAFETY

Store only in the original container. Store closed containers in a well-ventilated place, away from direct sunlight. Store in a cool, well-ventilated place, away from heat sources, open flames, sparks and other sources of ignition. The product is flammable.

If properly stored, the product is guaranteed for 24 months in its original packaging.

The packaging date is shown on the packaging (the batch number indicates, in sequence, year/week/day).

Consult the safety data sheet before use. Product intended for professional use only.

IMPORTANT:

All information contained in this sheet is based on the best practical and laboratory experiences. It is the customer's responsibility to verify that the product is suitable for the intended use. Isoplam Srl declines all responsibility for the results of incorrect applications. It is recommended to always carry out tests on small surfaces before application. This sheet replaces and cancels the previous ones. The data can be changed at any time. It should also be noted that Isoplam products are intended for professional use and that Isoplam provides periodic training for its customers who request it. Anyone who uses these products without being authorized to do so does so at their own risk.
