

PLAMACRYL

Plam Stone Water-Based Indoor Protector

DESCRIPTION

Plamacryl Isoplam is a water-based, clear acrylic protector and fixative specifically designed to protect vertical interior surfaces made of stamped plaster or artificial rocks. The resin is anti-yellowing, dustproof and water resistant.

ADVANTAGES

- Plamacryl Isoplam:
- does not yellow over time;
 - reduces water absorption;
 - prevents the formation of mold;
 - hinders the formation of dust on surfaces;
 - facilitates surface cleaning;
 - does not alter the natural color of surfaces.

FIELDS OF USE

Plamacryl is indicated for the protection of internal surfaces made of Plam Stone stamped wall and artificial rocks Plam Rock Isoplam even after they have been coloring with Plam Wax or Plam Paint.

APPLICATION

The temperatures of use shall be between 5 and 35°C and the relative humidity of the environment shall be <75%.

Make sure the surfaces to be treated are dry and clean.

Plamacryl is already ready to use.

Apply a coat of product using an airless pump, roller, or brush.

The tools used for the application should be washed with water as soon as possible.

YIELD

Consumption varies depending on the porosity, the degree of absorption of the support and the application method used.

Indicatively there is a yield of 10 m²/L (consumption approx. 0.10 L/m²).

PACKAGING, STORAGE, WARRANTY AND SECURITY

Plamacryl Isoplam is supplied in 5 L cans.

If stored properly, at temperatures between +5°C and +35°C, 12 months are guaranteed from the packaging date shown on the canister identified in the batch number. Batch numbers have the following meaning: year / month + progressive production number.

Isoplam® guarantees that its products are free from defects.

Isoplam® guarantees its products but not the work of applying them.

Plamacryl is for professional use only. Consult the Safety Data Sheet before use

IMPORTANT:

All the information in this sheet is based on best practical and laboratory experience. E' customer responsibility to verify that the product is suitable for the intended use. Isoplam Srl disclaims any responsibility for the results of incorrect applications. It is recommended to always test on small surfaces before application. This tab replaces and cancels the previous ones. The data can be varied at any time. It is also recalled that Isoplam products are intended for professional use and that Isoplam provides for the periodic training of its customers who request them.
